ElevenLabs 収録用スクリプト　TOEIC リスニング 全15回

全15回 × 8トラック ＝ 計120ファイル（Part 2 応答90問・Part 3 会話45問・Part 4 説明文45問 / 計180問）

1. このPDFの使い方（コピペでそのまま収録できます）

・各回は「2ページ見開き構成」です（全15回＝30ページ＋この表紙1ページ＝計31ページ）。
　1ページ目：Part 2（問1〜問6の6ファイル：tpl_rXX_p2_q1.mp3 〜 q6.mp3）
　2ページ目：Part 3（会話1ファイル：tpl_rXX_p3.mp3）＋ Part 4（説明文1ファイル：tpl_rXX_p4.mp3）
・各トラックの「点線の枠の中」には英語と <break time="..." /> だけが入っています（和訳や解説は枠外）。
・点線の枠の中だけをコピーして ElevenLabs に貼り付け、見出し左上のファイル名（例 tpl_r01_p2_q1.mp3）で保存してください。

2. ElevenLabs の推奨設定

・モデル：Eleven Multilingual v2（<break time="..." /> タグがそのまま無音の間として機能します）
・パラメータ目安：Stability 60〜70% ／ Similarity 75% ／ Style 0% ／ Speed 0.95〜1.0 ／ Speaker boost ON
・声の選び方（おすすめ）：アメリカ英語またはイギリス英語の聞き取りやすい女性声 (W) と男性声 (M) を1人ずつ決めます。
　- Part 2（応答）：1声の Text to Speech でそのまま1本ずつ生成できます（さらにこだわる場合は Studio で質問者と A〜C を分けてもOK）。
　- Part 3（会話）：枠内の各行頭に [Woman] / [Man] が付いています。ElevenLabs Studio（Projects）に貼り付けて [Woman] を女性声、[Man] を男性声に割り当てて書き出すと自然な2人の会話になります（単一TTSで録る場合は行頭の [Woman] / [Man] だけ消してください）。
　- Part 4（説明文）：指定の性別（女性 W または 男性 M）の Text to Speech にそのまま貼り付けて1発で生成できます。

3. アプリへの音声反映手順（録音前でもアプリは動作します）

・録音した .mp3 ファイルをフォルダにまとめ、次のコマンドを1行実行するだけでアプリに取り込まれます：
　python3 scripts/toeic-listening-audio/import_mp3.py <MP3を入れたフォルダ>
・public/audio/toeic_listening/<trackId>.mp3 にコピーされ、index.json が自動更新されます。
・まだ MP3 を入れていないトラックがあっても、アプリ側で自動的にブラウザ音声合成（Web Speech API）へ切り替わるため、1回分ずつ順番に録音・追加していく運用でも問題なく遊べます。

4. ファイル名ルール一覧（第01回〜第15回：XX は 01〜15 の2桁）

・tpl_rXX_p2_q1.mp3 〜 tpl_rXX_p2_q6.mp3 ..... Part 2 応答問題（問1〜問6・各約12〜16秒）
・tpl_rXX_p3.mp3 ..... Part 3 会話問題（問7〜9用対話・約45〜60秒）
・tpl_rXX_p4.mp3 ..... Part 4 説明文問題（問10〜12用トーク・約45〜60秒）

本スクリプトはすべて「まなとび」オリジナルの書き下ろし問題です（実在しない架空の社名・人名・施設名を使用）。

Good morning, everyone. As we prepare for our move to the Bayside Tower next Monday, I'd like to go over a few packing steps so nothing gets misplaced over the weekend.
<break time="0.8s" />
Each desk has been given three green plastic crates and a sheet of color-coded labels. Blue labels are for items going to the sixth floor, and yellow labels are for the seventh floor. Please attach a label to the side—not the lid—of every crate so movers can read it when crates are stacked.
<break time="0.8s" />
Please take your company laptop and ID badge home with you on Friday evening. Everything else must be packed and sealed by four P.M. Friday.

[Woman] That's a relief! Will he fly in tonight, or is he conducting it remotely?

[Woman] Good afternoon, David. Did you have a chance to tour the two retail spaces we're considering for our fourth bakery-café?
<break time="0.6s" />
[Man] I visited both this morning. The corner unit on Maple Avenue gets tremendous foot traffic from the commuter rail station, though the monthly rent is fifteen percent above our initial target.
<break time="0.6s" />
[Woman] And how was the second space—the one inside the Elmwood Office Plaza?
<break time="0.6s" />
[Man] The rent is much more reasonable, and it already has commercial kitchen ventilation installed, which would save us thousands in remodeling costs. However, the building is almost empty on weekends.
<break time="0.6s" />
[Woman] Hmm, weekend brunch accounts for nearly forty percent of sales at our other three cafés. Paying higher rent on Maple Avenue might still pay off if weekend volume is strong.
<break time="0.6s" />
[Man] True. Let's ask the Maple Avenue landlord whether they'd lower the first-year rent if we sign a five-year lease instead of three.

Good morning, everyone, and thank you for volunteering for the Maplewood Botanical Garden's annual Spring Plant Sale! Because local news featured our heirloom tomato seedlings yesterday, we're expecting nearly two thousand visitors when the gates open at nine.
<break time="0.8s" />
Please pick up a green apron and a handheld price scanner from the table behind me. Remember that garden members receive a ten percent discount when they show their membership card, so press the yellow "Member" button before scanning their trays.
<break time="0.8s" />
Around noon, boxed lunches from Cedar Street Deli will be set out in the staff greenhouse. Make sure to coordinate with your booth partner so at least one volunteer stays at every checkout table at all times.

[Man] Hi, Sora. Our test riders just finished a two-week road trial of the Volt-E folding commuter bike. Overall, they loved how light the aluminum frame feels on stairs.
<break time="0.6s" />
[Woman] That's great to hear! Did they report any issues with the folding latch or the battery range?
<break time="0.6s" />
[Man] The battery easily lasted fifty kilometers per charge. However, three riders noted that the rear fender rattled over cobblestone streets, and one said the handlebar grips felt slippery in the rain.
<break time="0.6s" />
[Woman] Adding a rubber washer under the fender bracket should stop the rattling right away. As for the grips, didn't we test a textured silicone material on our mountain bike line last year?
<break time="0.6s" />
[Man] Good memory—that supplier is Apex Polymer. Switching to their silicone grip would add only about eighty cents per unit.
<break time="0.6s" />
[Woman] That's well within our margin. Could you request twenty sample pairs from Apex Polymer so we can fit them onto the prototypes before next month's dealer showcase?

[Woman] Good morning, Mr. Alverez. I'm calling from Bayside Grand Hotel to finalize the lunch menu for Friday's healthcare innovation forum. Are we still expecting one hundred and twenty guests?
<break time="0.6s" />
[Man] Actually, late registrations pushed our headcount up to one hundred and thirty-five. Also, twelve attendees indicated on their forms that they need gluten-free meals.
<break time="0.6s" />
[Woman] Adding fifteen seats in the Harbor Ballroom is no problem at all, and our chef can prepare grilled herb chicken with quinoa for the gluten-free plates. We'll place small green cards at their table settings so servers can spot them easily.
<break time="0.6s" />
[Man] That sounds very organized. One more thing—our keynote speaker's flight lands a little late, so could you push lunch service back from twelve o'clock to twelve thirty?

Every team that averages at least eight thousand steps per person each day will be entered into a drawing for gift certificates to local sporting goods stores. Don't worry if you prefer cycling or swimming—the app includes an activity converter so non-walking workouts count too.

[Man] Hi, Camilla. Have you watched the rough cut of our two-minute recruitment video that Silver Frame Studio sent over this morning?
<break time="0.6s" />
[Woman] Yes, I just watched it twice! The footage of our robotics lab looks fantastic, and the background music has great energy. My only concern is the voice-over during the middle section—it feels a little rushed when the narrator lists our overseas offices.
<break time="0.6s" />
[Man] I noticed that too. Instead of making the narrator read all eight city names aloud, we could display them on a world map graphic and cut two sentences from the script.
<break time="0.6s" />
[Woman] That's a smart solution—it'll give the narration room to breathe. Also, since we'll play this video on a muted monitor at university career fairs, let's make sure English captions are burned into the video file.
<break time="0.6s" />
[Man] Good point. Our contract with Silver Frame includes two rounds of edits at no extra cost, so adding captions and trimming the voice-over won't affect the budget.
<break time="0.6s" />
[Woman] Great. Let's type up our timestamped notes before three o'clock so they can record the revised lines tomorrow.

[Man] Great! How did the embossed gold lettering on the lid turn out?

[Man] We have two options: I can widen the camera zoom slightly, or we can place small strips of yellow gaffer tape on the stage carpet so speakers can see where the camera boundary is.

[Woman] If we zoom out too far, the speaker's face looks tiny on laptop screens. Let's put down the tape markers—and I'll brief the CEO five minutes before we go live.

[Man] Sounds like a plan. I'll grab the gaffer tape from the media closet right now and mark both sides of the stage.
