予 想 問 題　第 3 回

前 期 日 程　対 策

英 語 問 題

岩手大学（人文社会科学部・教育学部 共通問題）の出題形式に準拠 ／ 問題

注　意

1. 問題部分と解答用紙で構成されている（問題部分 1〜6ページ・解答用紙 7〜8ページ）。答えは解答用紙の決められた欄に書くこと。
2. 試験時間の目安は90分。大問は 1〜3 の3題。日本語で答える設問と英語で答える設問がある。
3. 配点は 1 70点・2 60点・3 70点（計200点）。本予想問題が独自に定めた配点である。
4. 本冊子の英文・設問はすべてオリジナルである。登場する人物・団体・地名は架空。

岩手大学の過去問・公式問題ではありません。予想問題であり，大学とは関係がありません。
本冊子は過去の出題形式を分析して作成した練習用の教材です。

1　長文読解（配点 70点）

英文を読んで，後に続く設問に日本語で解答しなさい。（＊印の語には，英文の末尾に意味を示してある。）

Walk into almost any supermarket and you will see rows of apples that look as if they were made in a factory: the same size, the same shape and the same shining red. Behind this neat display lies a less attractive fact. In many countries, shops set strict standards for the appearance of the produce＊ they buy from farmers. Carrots must be straight, cucumbers must not curve too much, and potatoes with small marks on their skin are often rejected. (1)A considerable share of what farmers grow therefore never reaches the shelves, not because it is unsafe or tasteless, but simply because it does not look the way buyers expect.

What happens to this rejected food varies. Some of it is sold cheaply to factories that make juice or soup, and some is fed to animals. A large amount, however, is ploughed back into the soil or left to rot in the field, because the cost of picking and transporting it would be higher than the price anyone would pay. For the farmer, this means months of work, water and fuel wasted. For the planet, the land, energy and labour used to grow the food have produced nothing that anyone eats.

Why are shops so demanding? Supermarket managers often say that they are only responding to their customers. (2)Research on shopping behaviour suggests that when people are given a choice between a perfect tomato and a slightly odd-looking one at the same price, most pick the perfect one, even if they believe the two will taste identical. Over decades, people have learned to treat appearance as a signal of quality and freshness. Uniform products are also easier to pack into standard boxes and to price by the piece, which makes the whole supply chain run more smoothly.

In recent years, however, a number of shops and small companies have begun to challenge these habits. Some supermarkets now sell boxes of “wonky＊” vegetables at a lower price, with cheerful labels that make a joke of their unusual shapes. Online businesses deliver boxes of rejected produce directly to customers’ homes. School cooking clubs have run campaigns showing that a two-legged carrot can be peeled, chopped and cooked like any other. (3)Such efforts have been more successful than many people expected, partly because they appeal to two different motives at once. Some customers buy wonky food to save money; others buy it because cutting waste matters to them.

Not everyone is convinced that these schemes are a complete solution. Critics point out that if wonky vegetables are sold more cheaply, farmers may simply be paid less for doing the same work. Others worry that customers who buy cheap wonky produce may stop buying the regular

kind, so that the shop's total sales of fresh food do not rise at all. There is also the question of scale: a box scheme that rescues a few tonnes of carrots a week makes little difference if thousands of tonnes are still being thrown away.

Even so, the movement may be changing something more important than how much food is sold. (4)By making people laugh at a crooked cucumber, it encourages them to doubt whether the way food looks tells us how good it is. Once shoppers begin to judge vegetables by their taste rather than their appearance, shops may find that their strict standards are no longer necessary.

produce　農産物（名詞）
wonky　（英・口語）形のゆがんだ

設問 1　下線部(1)を和訳しなさい。

設問 2　段落②によると，はねられた農産物の多くが畑に残されるのはなぜか。また，それは農家にとってどのような損失になるか。80字以内で説明しなさい。

設問 3　下線部(2)を和訳しなさい。

設問 4　下線部(3)の Such efforts の具体例を二つ挙げ，それらが成功した理由を，下線部の後の内容をふまえて100字以内で説明しなさい。

設問 5　下線部(4)を，it が指すものを明らかにして和訳しなさい。

2　英作文・和文英訳（配点 60点）

次の (1)・(2) の設問に答えなさい。

設問 1　The early bird catches the worm.（早起きは三文の徳）ということわざに，あなたは賛成か，反対か。具体的な経験や身近な例を用いて，英語80語程度で書きなさい。なお，英語で書く力を見る問題であり，意見の内容そのものは評価の対象ではない。

設問 2　次の日本文を英語に訳しなさい。

> 新しいことを始めるとき，私たちは失敗を恐れて最初の一歩をためらいがちだ。しかし，うまくいかなかった経験からこそ学べることは多い。大切なのは，失敗しないことではなく，失敗したあとにどう行動するかである。

3　長文読解（選択式）（配点 70点）

英文を読み，後に続く設問に答えなさい。各段落の冒頭の (1)〜(6) は段落番号である。（＊印の語には，英文の末尾に意味を示してある。）

(1) Only a generation ago, night trains seemed to be heading for extinction. As cheap flights and fast daytime rail lines spread, fewer passengers were willing to spend ten hours in a narrow bunk*, and many railway companies cut their overnight services to save money. Old sleeping cars were sold, scrapped or left to (①) in sidings. For people who remembered falling asleep in one country and waking up in another, it felt like the end of a romantic way to travel.

(2) In recent years, however, the night train has made a surprising return. New routes have been launched between major cities, and some old ones have been ⑥restored. Several railway companies have ordered modern sleeping cars with private cabins, showers and power sockets. Tickets on popular routes now sell out weeks in advance, especially during holiday seasons. On some routes, families now book the same cabin every summer, and children who have never flown before treat the journey as the most exciting part of their holiday. The (②) is not only nostalgia. More and more travellers are looking for ways to cut the amount of carbon* they produce, and a train that carries them while they sleep can replace both a flight and a hotel night.

(3) Supporters also point to the time that is saved. A short flight may last only an hour or two, but passengers must travel to an airport, which is often far from the city centre, arrive well before departure and pass through security. A night train, by contrast, usually leaves from a central station in the evening and arrives in the centre of another city in the morning. For a business traveller with a meeting at nine, this can be more (③) than an early flight that requires getting up at four.

(4) The comeback has not been easy, though. Running a sleeping car is ⑦costly: each carriage carries far fewer passengers than a daytime coach, but it still needs staff, cleaning and bedding. Track charges, which railway companies pay to use the lines, can differ greatly from country to country, so a single international route may involve several sets of fees and rules. Delays are another problem. When a train crosses many borders, a small problem early in the night can ⑧accumulate until the train arrives hours late.

(5) Governments have responded in different ways. Some have offered financial support for new routes, arguing that night trains help them meet their environmental goals. Others have been more (④), pointing out that only a small number of passengers are involved compared with the millions who fly each year. Critics also note that a ticket for a private cabin can cost

more than a flight, which means that night trains may ⑨appeal mainly to people who already have money and time to spare.

(6) Whether the revival lasts may depend on whether night trains can become an ordinary choice rather than a special experience. If prices fall, timetables become more reliable and booking across borders becomes as simple as buying a plane ticket, more travellers may decide that a good night's sleep on the move is worth the extra hours. For now, the sight of a full sleeping car pulling out of a station on a winter evening is a ⑩reminder that an old idea can sometimes answer a (⑤) problem.

bunk　（列車などの）寝台
carbon　（ここでは）二酸化炭素

設問 1　空欄 ① ～ ⑤ にあてはまる語を，それぞれ (a)～(e) の中から一つずつ選び，その記号を書きなさい。

① (a) shine　(b) rust　(c) race　(d) grow　(e) sing

② (a) price　(b) noise　(c) reason　(d) danger　(e) distance

③ (a) convenient　(b) dangerous　(c) expensive　(d) tiring　(e) unusual

④ (a) generous　(b) careless　(c) excited　(d) cautious　(e) proud

⑤ (a) modern　(b) forgotten　(c) wooden　(d) silent　(e) sleepy

設問 2　下線部 ⑥ ～ ⑩ に意味の近い語句を，それぞれ (a)～(d) の中から一つずつ選び，その記号を書きなさい。

⑥ restored
(a) brought back　(b) sold　(c) closed　(d) painted

⑦ costly
(a) popular　(b) expensive　(c) dangerous　(d) slow

⑧ accumulate
(a) disappear　(b) improve　(c) build up　(d) calm down

⑨ appeal
(a) complain　(b) return　(c) belong　(d) be attractive

⑩ reminder
(a) sign of danger　(b) kind of ticket　(c) something that makes you remember
(d) loud noise

設問 3　本文の内容をふまえて，⑪ 〜 ⑮ の英文に続くものを (a)〜(d) の中から一つずつ選び，その記号を書きなさい。

⑪ Night trains became less common in the past because ...
(a) ... sleeping cars were too large for most stations.
(b) ... railway companies wanted to make journeys more romantic.
(c) ... passengers preferred trains that ran only at night.
(d) ... cheap flights and fast daytime trains became more popular.

⑫ According to paragraph (2), one reason why night trains have returned is that ...
(a) ... tickets are now cheaper than flights on every route.
(b) ... some travellers want to cut the carbon they produce.
(c) ... airports have stopped offering early flights.
(d) ... old sleeping cars are more comfortable than new ones.

⑬ Compared with a short flight, a night train ...
(a) ... usually leaves from and arrives at central stations.
(b) ... always reaches its destination in under two hours.
(c) ... requires passengers to pass through airport security.
(d) ... is mainly used by people who live near airports.

⑭ Sleeping cars are expensive to run because ...
(a) ... they can only run during the holiday seasons.
(b) ... passengers must pay separate fees in every country.
(c) ... each carriage carries few passengers but still needs staff.
(d) ... they are much heavier than ordinary daytime coaches.

⑮ Some critics think that night trains ...
(a) ... should replace all international flights immediately.
(b) ... may mainly attract people with spare money and time.
(c) ... are too slow to be used by business travellers.
(d) ... produce more carbon than planes do.

設問 4　本文に書かれている内容と一致しないものを (a)〜(d) から一つ選び，記号で書きなさい。

⑯ (a) Some new sleeping cars have private cabins and showers.
(b) A delay early in the night can make a train arrive hours late.
(c) Railway companies pay fees to use the tracks.
(d) Every government has given money to support new night train routes.
